MAKO #MK42 Cutter for 50-60 Class Excavators

- ◆ 3- Bi-directional Blades
- ◆ 1 year Commercial Warranty
- ◆ Galvanized for long life
- ◆ Weighs right at 700 Lbs.
- ◆ Optional Case drain port
- ◆ Up to 20000 FPM tip speed
- ◆ Gear-Tek Motor with "High Pressure" Seals
- ◆ Teeth on pedestal mates with Thumb

The 42" **Mako** is perhaps our best-selling Cutter. It is lighter weight than the 48" cutters most others run on **50-60 Class Mini Excavators**. It is still built with 1/4" plate Steel, AR400 on all wear areas and the 3 blades made of 5160 Forged blades. The Bearing housing and spindle are made in house right here in Alabama. With a faster Tip speed than the others, like a true Mako, its the fastest Predator in the Sea!
